Instructions :

Indicate your choice for Grade 10 by ticking the appropriate blocks. Choose one subject from each of No 2,3,5,6,7.

Note that Business Studies, History and Life Sciences feature in two categories allowing learners to select it in either of the categories it is offered in, to allow some flexibility in selection.

Computer Applications Technology is not recognised as one of the subjects that allows for admission to university or points in the university admission system.

Classes in Consumer Studies and Computer Applications Technology have to be limited in number so acceptance into the class is not guaranteed.

Note that the above choices are provisional and subject to change should numbers or unforeseen circumstances require adjustments be made.

It is suggested that learners wishing to pursue Accounting or Science Fields at Tertiary level should take Mathematics rather than Mathematical Literacy.
